

BLS HCP Online Part 1*

Course Covers:

- Adult rescue breathing
- Adult CPR/AED – 1 Rescuer
- Adult CPR/AED – 2 Rescuers
- Adult relief of choking
- Child rescue breathing
- Child CPR
- Child relief of choking
- Infant rescue breathing and choking

The Basic Life Support for Healthcare Provider (BLS HCP) Online Part 1 Course offers a flexible training option for busy healthcare professionals. The online cognitive portion (Part 1) allows students to complete learning at their own pace and convenience. To help students gain confidence in performing skills, Part 1 is combined with a hands-on skills session (Part 2) where students have the opportunity for one-on-one time with an AHA Instructor to practice skills. A skills test (Part 3) with an AHA Instructor ensures skills proficiency. Upon successful completion of all three parts students receive their healthcare provider course completion card.

This course is an ideal option for healthcare providers seeking an alternative to traditional classroom training for first-time or renewal certification.

Features

Series of online modules covering the required adult, child and infant CPR sequences

10 checkpoints to be completed

Twenty-one optional review sections and 17 videos

Part 1 certificate of completion is provided and must be presented at a skills session (Part 2) and skills test (Part 3) with an AHA Instructor
Product #80-1055

Benefits

Establishes a standardized training program

Self-paced learning, accessible anytime (24 hours a day)

Provides flexible course design, accommodating a range of learning from basic checkpoint review to more extensive learning through optional sections

Immediate answer feedback on cognitive learning

Reinforces learning and ensures competence

Allows for one-on-one practice and testing with an AHA Instructor to ensure proficiency in skill performance
