

First Aid Heartsaver® First Aid Online Part 1*

Course Covers:

- First aid basics
- Medical emergencies
- Injury emergencies
- Environmental emergencies

In recent years, OSHA reports show that approximately 4 million workplace injuries and illnesses occur annually. It is vital for employers to provide their employees and designated first responders with training that enables them to take immediate and appropriate rescuer action, before professional help arrives.

The Heartsaver[®] First Aid Online Part 1 Course is for businesses and other entities that want to provide first-time or renewal training to their employees or designated first responders. This course presents the cognitive portion online (Part 1) and offers a blended learning solution for organizations that face obstacles implementing classroom-based training. To help students gain confidence in performing skills, Part 1 is combined with a hands-on skills session (Part 2) where students have one-on-one time with an AHA Instructor to practice skills. Upon successful completion of both parts students receive their course completion card.

Features

Interactive questions and video segments

Downloadable student review guide

Part 1 certificate of completion is provided and must be presented at skills practice session (Part 2) with an AHA Instructor

Can start, stop and return to online modules as needed

Product #80-1095

Benefits

Convenient alternative to traditional classroom training

Offers fast implementation with no classroom scheduling delays

Self-paced learning for Part 1

Flexibility to complete online modules at home or work

Content based on the latest American Heart Association science

Allows for one-on-one practice with an AHA Instructor to ensure competence in skill performance
